This course examines non-fictional accounts of the relationship between water (its management and mythology) and the development of diverse civilizations. This course alternates between historical examples from around the world and a specific focus on the Great Lakes Basin, including a group project for improving the ecology of the Thames (Deshkan Ziibi).

Note: For summer 2019, the prerequisite will be waived.
To enrol in the course without the pre-req, please email Simone.Shepherd@kings.uwo.ca, Academic Program Advisor for English.
