Dr. Trevor Hunter
The King’s Management and Organizational Studies program develops graduates who are good at business and do good through business.

Dr. Hunter honestly feels that business is the most important force in the world today and we as professors of business and management have a responsibility to teach our students how to do it the right way. In his opinion, there are two components to doing business the right way, and they are both related. The first component is that our students must understand the fundamentals of business and management to make sure they know how to make business profitable.

However, the second component reminds us that there is a line that must not be crossed in running a profitable business and that line is the one where the pursuit of profit leads to exploitation.

“At King’s we teach students that the best way to do business is to manage for the long term. To develop and enhance resources, be they people or natural. We teach students this because it is simply good business.”

Why study Global Commerce?

Globalization is the pervasive force in the world today and an understanding of how to manage global business is fundamental to business success. If graduates do not understand how the global economy works and how to manage a firm within it, they are at a significant skill disadvantage.

The King’s Honours Global Commerce degree is the best preparation for the global business environment because it provides students with the skills and perspective to lead global businesses.

Workplace Skills

Research suggests that global business people need three main skills. The Honours Global Commerce degree provides students with the skills they need to get hired by and have successful careers in global firms:

1. **Global business savvy**: a strong grasp of how industry operates worldwide, how global customers behave, how your competitors target their needs and habits, and how strategic risk varies by geography - BUS 1220, MOS 2285, MOS 3320, MOS 4404, MOS 4410, Internship program

2. **Cognitive complexity**: the ability to piece together multiple scenarios with many moving parts, without becoming paralyzed by the number of options - BUS 1220, BUS 2257, MOS 3310, MOS 3320, MOS 3330

3. **Cosmopolitan outlook**: an active interest in the culture, history, geography, and political and economic systems of different parts of the world - ECO 2220, ECO 2221, ECO 2222, ECO 2223, ECO 2260, ECO 2261, ECO 2162, MOS 2220, ECO 3343, ECO 3352, ECO 3370, Pol Sc 2231, MOS International Study Trip, Exchange programs, King’s courses offered at DUFE and CTBU
