

2019 Summer Session | Shenzhen University

Titled with “the Special Economic Zone University”, the “Window University” and the “Experimental University”, SZU has grown into a multi-discipline university hosting over 30,000 students, 2,500 professional teachers and staff members since its founding three decades ago. SZU, characterized by its youthful vigor, beautiful campus and rapid growth, offers bachelor, master and PhD degree in great variety of programs. With the state-of-art facilities and a devoted and professional teaching and research team, SZU is committed to an innovative, high-level and international prominent university.

SZU will provide an international summer session for both domestic and international student from July to August this year. Professors from top universities from all over the world, including CMU and Massachusetts Institute of Technology (MIT) will be invited. Each student can select up to 3 courses in this year’s summer session. We are looking forward to seeing you in July.

01 Course Introduction

The program contains more than 30 international university-level courses in the fields of Business, Mathematics, Science, Arts and Humanities. All the courses will be taught by professors from top universities in North America and contents are typically transferable to peer institutions within the United States, China, and Canada education systems.
