We acknowledge that our campus at King's University College is situated on the traditional territories of the Anishinaabek, Haudenosaunee, Lúnaapéewak, and Chonnonton peoples, all of whom have longstanding relationships to the land of Southwestern Ontario and the City of London. The First Nations communities of our local area include Chippewas of the Thames First Nation, Oneida Nation of the Thames, and Munsee Delaware Nation. In our region, there are eleven First Nations communities, as well as a growing indigenous urban population. KING’S UNIVERSITY COLLEGE

King’s University College truly offers the “best of both worlds.” King’s students have the benefits offered through the college’s affiliation with Western University and the advantage of a smaller community setting. King’s stands second to none in its quality of teaching faculty.

A major advantage of King’s is its small class size with only 50-60 students in a first year class. This allows professors and students to engage in meaningful discussions and enables professors to be readily available to students.

Students of all faiths are welcome at King’s. Expression of various ideas and perspectives is strongly encouraged. In addition, King’s offers many helpful student services and an excellent scholarship and bursary program.

THE WEATHER

London’s Four Seasons

In Ontario we experience a wide range of temperatures and weather conditions.

**Autumn**

The weather gets cooler, the days get shorter, and the leaves on many trees change colour and fall to the ground. Make sure you dress for the weather by wearing boots or warm shoes, a jacket or warm sweater and mittens and a hat when needed.

**Winter**

Winter officially begins in December but we may get snow as early as November. January and February are the coldest months. The average temperature during these months is between -2°C and -10°C (15-29°F). Winter provides ample opportunity for outdoor winter activities such as skating, skiing, snowboarding, and tobogganing.

Make sure you purchase a good-quality winter coat that is waterproof, has a fleece lining and a warm hood. You will also need waterproof boots as there is a lot of wet slush on the ground in winter.

Visit Settlement.org’s website for information about how to dress for winter in Ontario: [http://settlement.org/ontario/daily-life/shopping/shopping-for-clothes/how-should-i-dress-for-winter-in-ontario](http://settlement.org/ontario/daily-life/shopping/shopping-for-clothes/how-should-i-dress-for-winter-in-ontario)

Tip: Bring a pair of indoor shoes in your backpack. You can put these on when you get to where you are going.

**Spring**

Spring is a rainy season in most parts of Ontario. Make sure you have an umbrella and raincoat to stay dry. Average daytime temperatures are about 8°C (46°F) in March and rise slowly through the rest of the season. The nights are cool. Spring can surprise you with unexpectedly warm and cold days. Be prepared to add or take off a layer of clothing in spring.

**Summer**

Ontario summers are typically humid and sunny. The temperature averages around 26°C but can climb to over 30°C (86°F). Wear sunglasses, sunscreen and hats to protect yourself from the sun’s harmful rays.
