Room Assignments

King's offers both single (limited number) and double rooms. Room assignments are based on the preferences and lifestyle information you provide on your residence application. You can request a specific roommate, too. We know the idea of living with a new roommate may make some students a little nervous. Residence staff are here to support you in that relationship. We facilitate a roommate agreement process shortly after move-in to help you and your roommate discuss some key aspects of shared living. While the majority of residents enjoy a good living arrangement with their roommates, sometimes problems arise. Residence staff are here to help.

Many King's students choose to move off-campus and share living space with other students after first year. Developing skills to live successfully with others is a good investment in your future. Living in a supportive residence environment with a roommate is a good way to build those skills.

King's residence offers comfortable, convenient residence options at unbeatable value.

King's residence fees are the same, regardless of room location.

King's Residence offers single gender and mixed gender buildings and units.

Academic Support

At King's, residence is about access to academic support and fostering academic success.

- Daily quiet hours ensure an environment conducive to studying and sleeping.
- The Residence Brain Bucks program rewards academic effort and achievement, with a little friendly competition and great prizes thrown in.

 - 32 students in Wemple Hall
 - 15 students in each Townhouse

Things to talk about before September

Preparing for residence life is important for students and their families. Consider the following as you work together to get ready for this life transition.

- What are your academic expectations? Are there learning skills areas that you may need to improve to be successful?
- Is there a need for life-skill development in some areas? (laundry, basic cooking, banking, time management, etc.)
- What transitional issues might you or family members face? How will those issues be resolved or supported?
- Is everyone clear about the financial aspects of this transition - anticipated costs, access to financial assistance programs (OSAP, bursaries, scholarships, work study programs), payment deadlines and payment plans, access to emergency funds, and credit history implications?
- Are the necessary home insurance and health coverage updates in place? Residents are advised to insure their personal property. King's does not provide this individual coverage.

Student Resources

King's offers a full range of services to address students' academic, personal and spiritual needs.
