

Occupational Health and Safety Policy

Issued By: Principal

Approved By: Board of Directors

Effective Date: February 26, 2002 Amended

PURPOSE:

At King's, the Health and Safety of our community is vital. Our overall goal for the year 2002-2003 is to eliminate workplace injuries and illnesses at King's University College.

OBJECTIVES:

- to nurture a health and safety culture for our employees,
- to promote vigorously the basic fundamentals of health and safety,
- to hold accountable persons exercising managerial responsibilities for the health and safety of King's employees; and
- to establish a firm foundation upon which to build the health and safety program of the College.

King's University College and the Board of Directors are committed to achieving this goal. We recognize that it is everyone's responsibility to comply with legislation as specified in the Occupational Health and Safety Act and all relevant regulations, codes, standards, and guidelines. In addition, all third parties, such as contractors and sub-contractors, will comply with King's internal health and safety policy, procedures and current legislation.

By supporting the Joint Health and Safety Committee, by working together collaboratively, by reporting unsafe acts and conditions, by complying with legislation, and by subscribing to the principles of the Internal Responsibility System, we will realize our shared objective of a safer and healthier working environment, free from actual and potential hazards, whilst ensuring security for all.
